

Clorox® Total 360® System

For cold and flu viruses and norovirus prevention and outbreak strategies

Superior Coverage with Trusted Clorox® Solutions

During Cold and Flu Season

Clorox® is proud to offer the first system that pairs an electrostatic sprayer with a portfolio of Clorox® disinfectants and sanitizers. Electrostatic technology enables superior coverage of trusted Clorox® solutions in hard-to-reach places — the side, underside and backside of surfaces. Using the Clorox® Total 360® Electrostatic Sprayer to apply Clorox® Total 360® Disinfectant Cleaner,⁴ eliminates odors and gives you a healthier facility this cold and flu season.

Clorox® Total 360® System provides:

TIME EFFICIENCY

UP TO

4X

FASTER*

SUPERIOR COVERAGE

UP TO

18,000

FT²/HOUR

COST-EFFECTIVENESS

UP TO

65%

LESS SOLUTION*

The greatest threat to your bottom line is illness in your school or workplace.

Cold and flu viruses spread easily throughout your facility:

\$3.9 Million — the amount a pro sports team lost due to gastrointestinal illnesses.¹

1-4 Days — typical time it takes for symptoms to show up once a student or employee is infected with a cold or the flu.³

7 — number of days a virus can live on hard surfaces.⁵

Norovirus is highly contagious:

\$400,000 — cost to a major university to combat a norovirus outbreak.²

5 Billion — approximate number of norovirus particles in a gram of feces.⁴

18 — number of norovirus particles required to infect a student or employee with norovirus.⁶

Athletic Facilities

Cold and flu impact where you train.

Classrooms

Cold and flu impact where you learn.

Office Facilities

Cold and flu impact where you work.
